L	7	L2
R	8	R2

ACTIVATION
Hold B

V1.0		
Saturn	USB	PS3
A	1	Square
B	2	X
C	3	Circle
X	4	Triangle
Y	5	L1
Z	6	R1
S	7	L2
L	8	R2
R	9	Select

ACTIVATION
Hold C

On the PS3, the SLS (default) and SLS Alt mappings are usually the most suitable. They have been reported to work well for Super Street Fighter IV, Tekken 6, BlazBlue: Continuum Shift, Virtua Fighter 5, Arcana Heart 3, Hard Corps: Uprising, Soul Calibur, Disgaea 3 and Mortal Kombat 9.

2. good to know

Thanks to USB HID compliance, the adapter works immediately on most modern systems without installing special drivers. Tested under Linux*, Windows 7 64-bit and Sony Playstation 3.

3. important

* The mouse does not work under Linux 2.6.32. Will be tested with more modern kernels soon.
